

Telecom in Power Utilities

Foreword

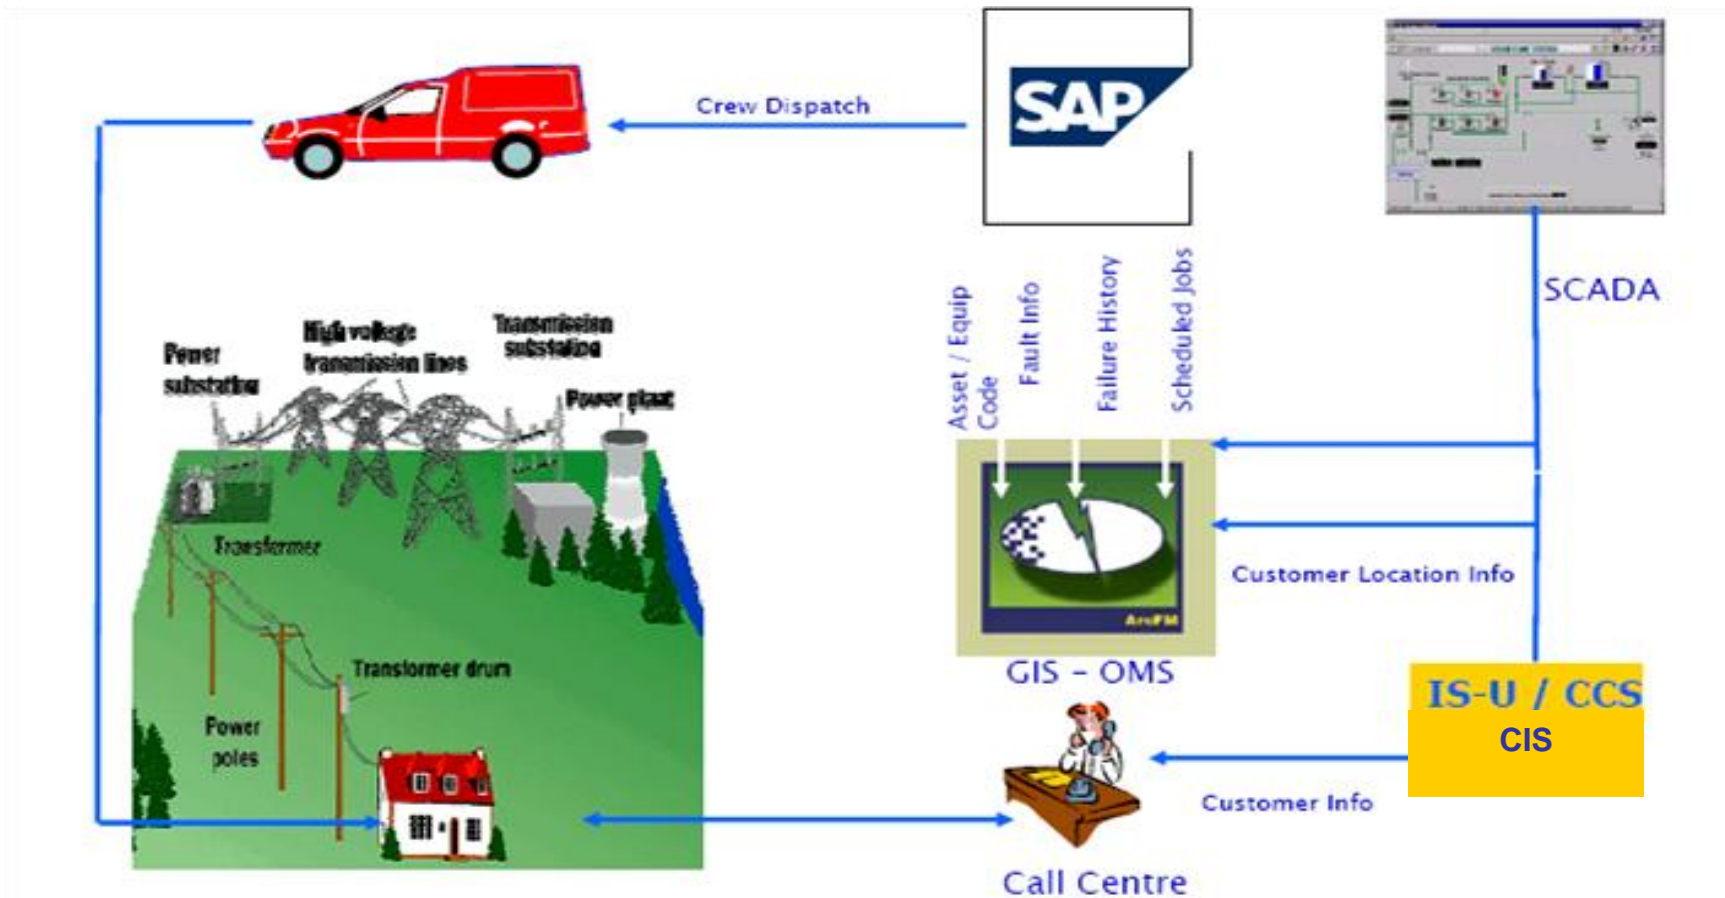

Communication is the key

Information share is vital not only for a right decision but for an efficient operation thus hits at top and bottom...

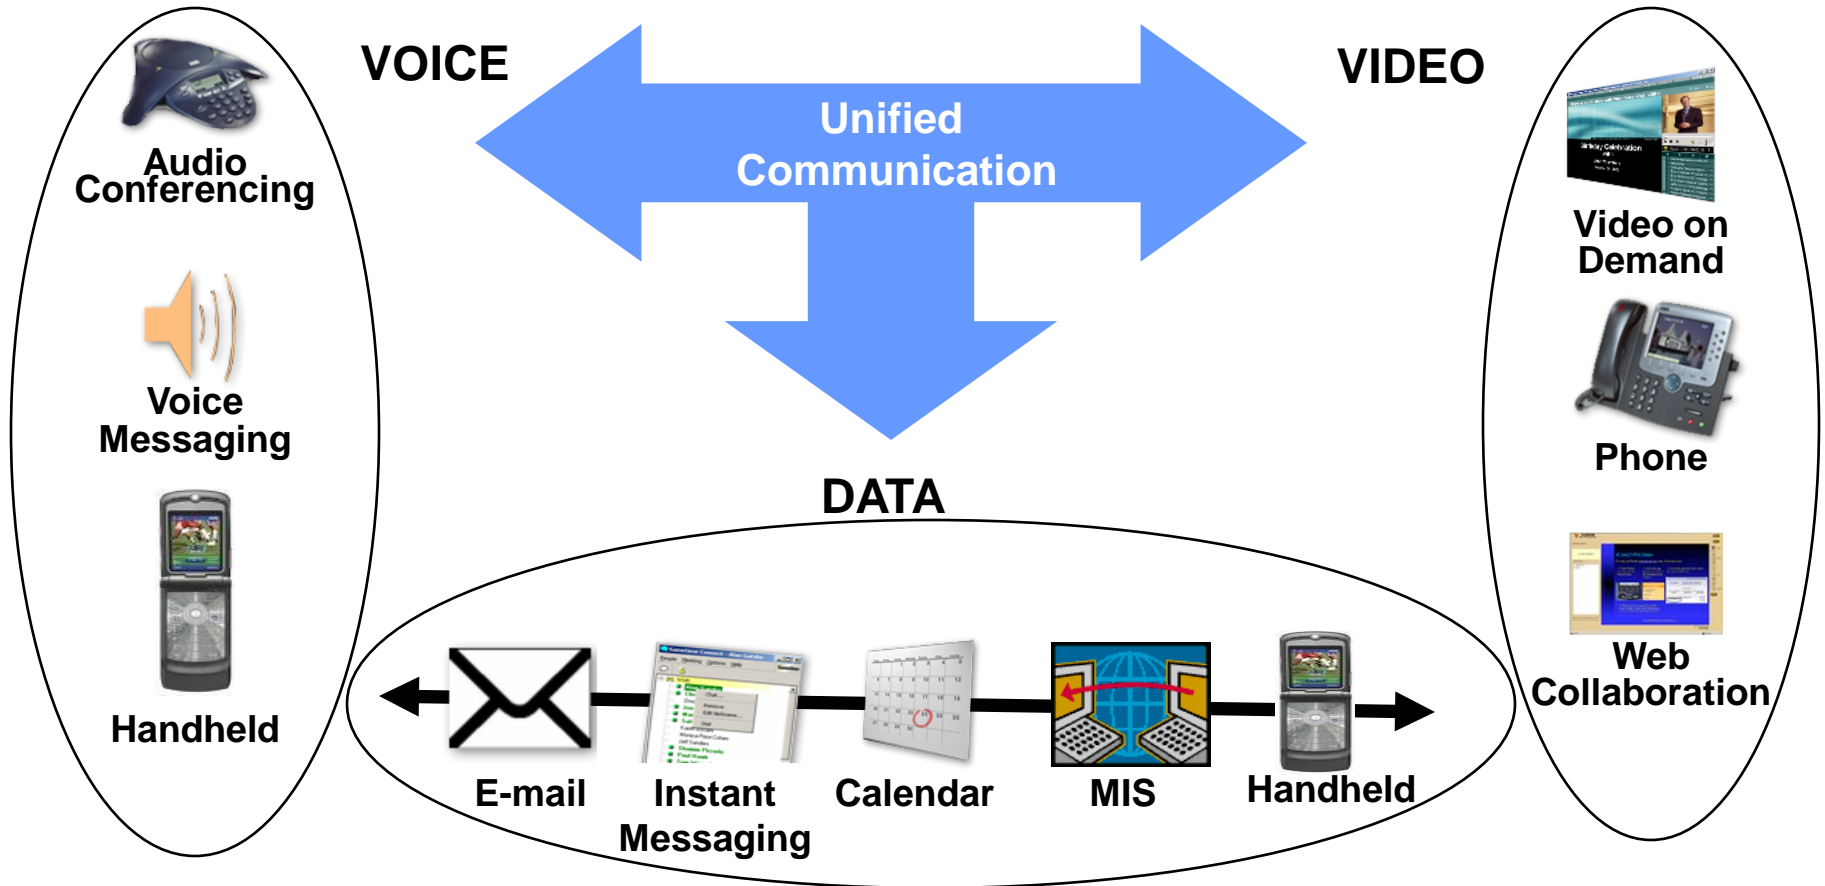

Telecom at a glance

- Power Generation
 - Info share between various stakeholders
 - Plant operations and maintenance
 - Power forecasts and trading
 - Payments
- Power Transmission
 - Project inception, execution and operations
- Power Distribution
 - Commercial and business
 - Operations

Convergence

Convergence

Telecom

- A back bone - operations and business
- Surveillance would add to the basket
- Unification and convergence to continue
- Ever ending innovations

THANK YOU
