

## **NEW YEAR MESSAGE by DIRECTOR GENERAL NPTI**

**TO**

**ALL EMPLOYEES OF NPTI & POWER SECTOR PROFESSIONALS**

I would like to wish all employees of **National Power Training Institute** and **Power Sector Professionals** a Very Happy, Prosperous and Dynamic New year 2017. ***Let us take pledge to be a Global Power Sector Leader in Training with innovative R&D input.*** I am sure that NPTI in 2017 will occupy a global position not only in training the power professionals but also emerge as leading R & D linked Training Organization under Ministry of Power, Gol to provide services for power sector as a whole. The recent MoAs with BEE, EESL, IEEMA and PSSC will prove to be beneficial not only to all manufacturing organization of Electrical Gadgets and power systems components manufacturers but also upgrading the skills of existing technical workforce. NPTI has not only initiated work for training the power professionals but also collaborative programmes for many organizations such as POSOCO, GIZ (Germany), Abudhabi Power Distribution Company limited, JWPTI Bhutan, PRDC, ISGF, NSGM, NTPC, PGCIL, STUs and many power utilities of India and abroad. In 2017, NPTI will certainly shine as an Apex Body in Training Power Sector along with innovative R&D inputs in Training Programmes to be offered for various utilities and industries. It has been realized that institutions involved in R&D need to be integrated in real time framework of power sector requirements, **NPTI is upcoming as Platform Creator to facilitate the power researchers within India and abroad** to work in a deliverable mode for the best feasible solution befitting National requirements by forming a CONSORTIUM of Power Components Manufacturers, Utilities and R&D Institutions to accelerate the indigenous technology development and associated training in existing thermal and hydro with upcoming Large Renewable Energy Mix in Indian Grid by 2022. This will provide a better facility for accelerated power growth as envisioned by Hon'ble Prime Minister and Hon'ble Power Minister of India.
