

PROSPECTUS FOR ADMISSION TO ONE YEAR POST GRADUATE DIPLOMA COURSES IN

- 1. Power Plant Engineering**
- 2. Smart Grid Technologies**
- 3. Power System Operation**
- 4. Energy Market Management**
- 5. Renewable Energy & Grid Interface Technologies**

WINTER SESSION 2018-19

NATIONAL POWER TRAINING INSTITUTE

A National Apex Body for Training in Power Sector

Established vide The Gazette of India, July 3, 1993

(An ISO 9001:2015 & ISO 14001:2015 Organization)

Ministry of Power, Govt. of India

MESSAGE FROM THE DIRECTOR GENERAL

It is my great privilege to welcome you to National Power Training Institute which is a National Apex Body for Training in Power Sector established vide The Gazette of India, July 3, 1993. NPTI is working for development of Power Sector human resources from the last 50 years.

Energy plays an important role in the development and progress of the country. With a view to build adequate technical capacity and develop economically viable Energy sector & energy efficient systems and compliance of laudable objectives of the Govt. of India, adequate scientific and technical manpower at all levels is a pre-requisite.

NPTI recognized the need for making this technically trained manpower readily available to the Power Sector in line with its present and future requirements.

Post Graduate Diploma Course in Power Plant Engineering is a successful program and has wide acceptance in the industry. Further, in view of the latest trends and modern practices in the Power sector, NPTI has launched the following four new job oriented & technologically advanced programs in year 2017:

PGDC in Smart Grid Technologies

PGDC in Power System Operation

PGDC in Energy Market Management

PGDC in Renewable Energy & Grid Interface Technologies

NPTI also covers a wide range of training programs for utility professionals of the power sector in the areas of Generation, Transmission, Distribution, Power Management, Regulatory aspects etc.

Welcome to the NPTI family. You are going to witness a curriculum that is a unique blend of technical thinking and practical exposure. I sincerely hope that your learning pursuit in NPTI will be fruitful and enjoyable in every aspect and the experiences you gain here and the moments you spend here will be cherished by you all throughout your professional career.

Wish you a very happy and rigorous learning experience.

(Prof. (Dr.) Rajendra Kumar Pandey)
Director General

ABOUT NPTI

NPTI Corporate Office, Faridabad, Haryana.

National Power Training Institute (NPTI), the national apex body under the Ministry of Power, Government of India, has been engaged in the service of Human Resources Development in the country's power sector since 1965. NPTI operates on all India basis through its five Regional Institutes at Badarpur (New Delhi), Neyveli (Tamil Nadu), Durgapur (West Bengal), Guwahati (Assam), Nagpur (Maharashtra) and four specialized Institutes i.e. Power System Training Institute (PSTI) & Hot Line Training Centre (HLTC) at Bangalore, and Hydro Power Training Center (HPTC) at Nangal & Centre for Advanced Management and Power Studies (CAMPS) at Faridabad. All institutes of NPTI are fully equipped with latest state-of-art training infrastructure and expert faculties with long years of professional teaching background as well as R&D exposure. These institutes are conducting a number of training programs for Power Engineers, Operators and Technicians in the areas of Thermal & Hydro Generation and Power System. To provide off-job/hands on operation training, NPTI is equipped with three computerized full scope, fossil fuel Thermal Power Plant Simulators. Two of them of 210 MW thermal power Simulators are available at Badarpur and Nagpur Institutes and a 500 MW Simulator at Faridabad Institute. Also NPTI is having one CCGT Simulator of 430 MW at Faridabad and one 250 MW Hydro power training Simulator at HPTC, Nangal. Super Critical Thermal Simulator of 800 MW is coming up at Faridabad and also Multifunctional Simulators are coming up at 6 Institutes. NPTI also provides consultancy to the Utilities on training and technical problems including setting up of Plant Level/State Level Training Institutes. The Regional

Institutes are conducting large number of long-term and short-term courses every year. Long-term courses (52 weeks) cover the mandatory requirements under Indian Electricity Rules. In addition, these institutes are also conducting on plant/on-site training programs as per the need of the Power Sector organizations. Since inception of this organization over 2.92 Lakhs personnel at various levels have been imparted training by the Institutes of NPTI.

THE NEED FOR THE COURSE

The Indian Power Sector with approx. 331.11 GW installed capacity at present has an annual growth of 5% approx. This huge annual growth of Indian Power Sector along with technological advancements and sophistication during last few decades has, in turn, been demanding trained man power. The technical knowledge acquired from Engineering Colleges provides the basic foundation, which needs to be supplemented with the Applied Engineering skills so as to groom the engineers for efficient functioning at every stage of planning, designing, engineering, procurement, construction, commissioning, operation, maintenance, transmission and distribution of power supply industry.

NPTI recognized the need for making this technically trained manpower readily available to the Power Sector in line with its present and future requirements. It was felt that requirement of trained manpower for Power Sector could be fulfilled if the engineers after passing their engineering degree are groomed by conducting a technical course approved by the competent authority of Government of India and giving them an exposure to the theoretical as well as practical aspects.

The “Post Graduate Diploma Course in Thermal Power Plant Engineering” has been one of the many flagship programs of NPTI. Assessing the next decades requirements NPTI has now re-designed the course contents to suit the needs of the Power Sector. It is now re-named as “**Post Graduate Diploma Course in Power Plant Engineering**”. **The course profile also covers the mandatory requirements under Indian Electricity Rules.** Product of the course has promising record of employment in the power industry.

Further, in view of the latest trends and modern practices in the Power sector, NPTI has launched the following new job oriented & technologically advanced programs in year 2017:

- PGDC in Smart Grid Technologies
- PGDC in Power System Operation
- PGDC in Energy Market Management
- PGDC in Renewable Energy & Grid Interface Technologies

The courses are designed to improve knowledge and enhance skill of fresh graduate engineers/working engineers who wish to make their career in power and energy sector.

WHY YOU SHOULD JOIN THE COURSE?

With a view to build adequate technical capacity and develop economically viable Energy sector and energy efficient systems and compliance of laudable objectives of the Govt. of India, adequate scientific and technical manpower at all levels is a pre-requisite. The main aim of the courses is to create a pool of technically trained manpower readily available for recruitment to the State, Central and Private Power Utilities and allied Industries.

ABOUT THE COURSES

Duration of the course is one year consisting of two semesters covering formal training at Institutes and industrial/field training. The courses cover the syllabus as per Indian Electricity Rules. Course Details are tabulated below:

S. No.	Course Name	Course Details
1.	PGDC in Power Plant Engineering	The course covers operation and maintenance of Thermal Power Plants and it satisfies the mandatory requirement of Indian Electricity Rules which stipulates that "No person shall be authorized to operate or undertake maintenance of any plant or whole of generating stations of capacity 100 MW and above together with associated sub-station unless he is adequately qualified and has undergone the specified training at a recognized training institute.
2.	PGDC in Smart Grid Technologies	The use of communications and information technologies is likely to cause major shifts in the way energy gets delivered. The objective of this course is to introduce about the smart grid technologies, their applications and control issues covering Smart Generation, Smart Transmission and Smart Distribution.
3.	PGDC in Power System Operation	Objective of the course is to provide the basics of electric power system generation, operation, and control to the students. The emphasis is on power system operation and operating mechanism/tools
4.	PGDC in Energy Market Management	The course focuses on the market structures that exist within the electric energy industry. It includes mechanism of energy markets; comparative market systems; determination of prices under different market structures; electricity market architecture; electricity market design; dispatch and new build decisions; risk and risk management, current and proposed policies on the energy industry etc.

5.	PGDC in Renewable Energy & Grid Interface Technologies	Focus of the course is to equip the students with technologies, economics and policy involving energy systems and supply with Renewable Energy sources. Detail expertise will be offered in Solar energy systems involving photovoltaic as well as thermal energy systems, wind energy, biomass, Geothermal, Tidal and Wave energy, Hydrogen & Fuel cells, Small Hydro along with problem associated with grid integration of all the sources and concept of SMART grid
----	--	---

The modules of the course are listed in the detailed curriculum. The sequences of these modules are not rigid and may be modified suiting to requirements of power companies.

PLACEMENT

In order to provide career opportunities in the Indian Power Sector, NPTI maintains close linkages with the power utilities and reputed concerns for placement of trained engineers. In the past, companies like ABB, Abellon Clean Energy, Abhijeet Power, Adani, Af Mercados, Bajaj Energy, BLACK & VEATCH, BSES, CESC, Chambal Fertilizers, CLP, CRISIL, Deloitte, DVB, DVC, Ecoren, Ernst & Young, ESSAR POWER, Feedback Ventures, Gamesa, GMR, HCL, HINDALCO, ICRA, IDAM Infra Advisory, IEPL, India Bulls, Indian Energy Exchange, IL&FS, IREDA, Jindal Power, KPMG, KSK Energy, LANCO, L&T, Moser Baer, Mytrah Energy, NALCO, NDPL, PTC, PwC, Reliance Industries, Reliance Power, ROLLS ROYCE, SIEMENS, Su-Kam, SUZLON, TATA Power, THERMAX, Torrent Power, Vedanta, Welspun Energy etc. visited NPTI for placement of students of various courses.

List of Modules for PGDC Courses

Subject / Module - First semester				
PGDC in Power Plant Engineering	PGDC in Smart Grid Technologies	PGDC in Power System Operation	PGDC in Renewable Energy & Grid Interface Technologies	PGDC in Energy Market Management
Power Plant Introduction & Industrial Safety	Evolution of the Indian Power Sector	Evolution of Indian Power Systems	Energy Resources and Conventional Energy Systems	Energy Resources and Electricity Generation Options
Power Plant Familiarization	Legislative & Regulatory Framework	Legislative and Regulatory Framework	Applied Heat and Power Technology	Transmission Networks
Power Plant Briefing & Scheme Tracing	Managerial & Interpersonal Skills	Managerial and Interpersonal Skills	Legislative and Regulatory Framework	Power System Operation and Management
Power Plant Operation	Communication Skills and Technical Writing	Communication Skills and Technical Writing	Managerial and Interpersonal Skills	Electricity Industry Structure and Regulations
Rotational On-Job (Operation)	Smart Grid Policy and Regulations	Elements of Power System	Energy Economics	Overview of Economic Theory
Erection, Commissioning & Construction Management	Introduction to Traditional Power Systems	Principles of Power System Operation	Communication Skills and Technical Writing	Commercial Systems & Transmission Pricing
Power Plant Performance & Efficiency Calculation	Introduction to Smart Grids.	Power System Stability and Control -I	Solar Thermal Systems	Electricity Markets Design
Power Plant Chemistry, Metallurgy ,NDT & Welding	Smart Grid Control Elements& Internet of Things	Reactive Power Management	Solar Photo-Voltaic Systems	Managerial and Interpersonal Skills
Gas turbine & Combined Cycle Power Plant	Smart Distribution technologies	Power System Analysis	Grid Interface Technologies -I	Communication Skills and Technical Writing
Advanced Steam Generation Technology-Supercritical and FBC	Energy storage, micro-grids, alternative grid designs,	On Job Training and Site Visits to Transmission Substation/O & M of Substation/ Switchyard/NLDC/ HVDC/FACTS facility	Tariff and Commercial Aspects	Visits to IEX/PXIL/RLDC
Business Communication & Personality Development	Demand Side Management & Demand Response	On Job Training on Load Dispatch Simulator and Power Systems Lab /HV Lab	Contracts Management	-
			On Job Training / Visits to Solar Thermal/ Solar PV and other RE sites and Laboratory work	-
FIRST SEMESTER EXAMINATION				

Subject / Module - Second semester				
PGDC in Power Plant Engineering	PGDC in Smart Grid Technologies	PGDC in Power System Operation	PGDC in Renewable Energy & Grid Interface Technologies	PGDC in Energy Market Management
Power Plant Protection	Communications and Interoperability	Legislative and Regulatory Framework - II	Wind Energy and Small Hydro	Load Dispatch Simulator Training
Energy Audit	Load Forecasting	Commercial Aspects and Contracts Management	Bio Mass& Bio Energy and Waste to Energy	Investing in Generation and Transmission
Maintenance Planning & Cost Control	Energy Management Systems	Transmission Pricing	Hydrogen and Fuel Cells	Ancillary Services Markets
Nuclear Power Plant Familiarization	Smart Grid Operations	Power System Stability and Control -II	Geo-thermal, Tidal and Wave Energy	Operation of Market Oriented Power Systems
Renewable and Hydro Power Plants	Smart Grid Controls & Smart Power Flow controllers and Intelligent Automation	Power Systems Planning and New Technologies	Co-Generation&Hybrid Systems	Electricity Storage Technology and Management
Maintenance Practice & Inspection	Smart Grid Applications Layer	System Security and Reliability	Energy Storage Technologies	Managing Risk
Design Analysis	Cyber Security	Smart Power Flow Controllers and Intelligent Automation	Appraisal & Financing of Renewable Energy Projects	Integration of Renewables and Effect on Power Markets
Load Dispatch	Integration of Legacy Systems	Power Markets	Energy, Environment and Sustainable Development	Introduction to Smart Grids
Power Reforms and regulations	E-mobility	Ancillary Services Management	Grid Interface Technologies – II	Power System Optimisation
Control & Instrumentation	Integration of RE Sources -II	SCADA / EMS and IT & Telecommunication Systems	Smart Power Flow Controllers and Intelligent Automation	Smart Power Flow Controllers and Intelligent Automation
IT Application in Power Sector & GIS	Smart Grid as enablers for Smart Cities	Protection Systems	On Job Training/ Visits to RLDC/SCADA facility	Cyber Security in Power Systems
Environment Management	International Benchmarks and Lessons learnt	Power System Operation in emergency	-	Climate Change and the impact on Energy Systems
Rotational On Job (Maint.)	Smart Grid Maturity Models	Power System Restoration	-	Power Market Simulation Lab
Training & visit to Mfrs. Works	Pilot Projects/ Case Studies and Business Models for Smart Grids	Optimization Techniques and MATLAB	-	-
Simulator Training (2-weeks will be imparted at Faridabad /Badarpur/ Nagpur/ in batches)	Visits/ Lab./Simulation	Power Markets Simulation Lab.	-	-
Project Presentation				
Second Semester Examination				

Note: The students have to select Topics for the Project before commencement of the second semester and complete by the end of second semester.

SEAT DISTRIBUTION (TOTAL)

Reservation for SC /ST/OBC/ Physically Challenged as per Govt. of India Norms. 25% seats are reserved for candidates sponsored from Power utilities. All Institutes have equal level of infrastructure as per the requirement of the courses. The seat allocations of the institutes are as below:

Institute wise Seat allocation Matrix for PGDC courses

Institute PGDC Course	Faridabad	Badarpur	Nangal	Neyveli	Durgapur	Guwahati	Nagpur	PSTI, Bengaluru	Total
Power Plant Engineering	60	60	60	60	60	60	60	-	420
Smart Grid Technologies	60	-	-	-	60	-	60	60	240

WHO CAN APPLY

ELIGIBILITY:

PGDC Course	Eligibility
(1) Power Plant Engineering	B.Tech. / B.E. or its equivalent with minimum 60% marks in Mechanical/ Electrical /Electrical & Electronics / Power Engineering and related branches
(2) Smart Grid Technologies	B.Tech. / B.E. or its equivalent with minimum 60% marks in Electrical /Electrical & Electronics /Electronics & Communication /Computer Science/ Information & Communication Technology and related branches
(3) Power System Operation	B.Tech. / B.E. or its equivalent with minimum 60% marks in Electrical/Electrical & Electronics/Power Engineering and related branches
(4) Energy Market Management	B.Tech. / B.E. or its equivalent with minimum 60% marks in Electrical /Electrical & Electronics / Power Engineering and related branches
(5) Renewable Energy & Grid Interface Technologies	B.Tech. / B.E. or its equivalent with minimum 60% marks in Electrical /Electrical & Electronics /Power Engineering and related branches

AGE LIMIT

There is no age limit for admission to PGDC courses.

SELECTION CRITERIA FOR ADMISSION

Merit based on aggregate marks of all 8 Semesters of B.Tech. / B.E. or its equivalent result followed by counseling.

COUNSELING

Counseling shall be held at NPTI Corporate Office, Faridabad, NPTI-PSTI, Bengaluru and NPTI, Durgapur simultaneously. Candidates may attend the counseling at any of the above institutes as per their convenience.

The candidate must appear in person at the counseling date along with all relevant original documents including caste certificate (if applicable), Date of Birth certificate, Educational Qualifications etc. (Ref. Annexure) The list of documents to be carried for counseling round would be published on the website before counseling round. The

schedule of counseling round & merit list of candidates allowed to appear for counseling round would be displayed on our website www.npti.in. The Sponsored candidates have to produce sponsorship letter at the time of counseling. The Sponsored candidates will not be considered for Campus Placements.

In case of candidate of OBC category for sponsored/Non-sponsored, non-creamy layer certificate must have been issued by the concerned authority on or after 01/04/2017.

Note

- 1. No TA/DA will be paid for attending Counseling for PGDC admission process. Candidates are advised to reach Counseling centre well in advance to avoid in-convenience. Reporting time at Centre of Counseling is 10 AM.***

ALLOCATION OF COURSE & INSTITUTE

Allocation of course and Institute will be done on the basis of Merit List based on aggregate marks of all 8 Semesters of B.Tech. / B.E. or its equivalent subject to availability of seats at institutes at the time of respective counseling. Allotment of all seats will be done only by counseling.

Note

- 1. All Instructions/ Notifications or any further information to the candidates regarding PGDC Admission shall be displayed on our websites www.npti.in**
- 2. All dates indicated are tentative. Counseling schedule and details will be displayed on our website. All candidates are advised to check website frequently for any updates. No individual communication shall be entertained.**
- 3. All the admissions will be done by counseling only.**
- 4. Candidates have to make their own arrangements for travel and stay at their own cost.**

COURSE FEE DETAILS

1.	Course fee for the Non-sponsored candidates	<p>Rs. 2,30,000/- + GST @18%* per participant with following details:</p> <p>a) Rs 20,000/- admission fee + GST @18% = Rs. 23,600/-** (Non Refundable) to be paid at the time of counseling for confirmation of admission.</p> <p>b) Rs. 1,00,000/- towards 1st installment of training fees + GST @18% = Rs. 1,18,000/-*** (Non Refundable) to be paid at the time of reporting/joining the allocated institute.</p> <p>c) 2nd installment : Rs. 1,10,000/- + GST @18% = Rs. 1,29,800/-*** (Non Refundable) (to be paid by 1st July 2018)</p>
2.	Course fee for the sponsored candidates	<p>Rs. 3,60,000/- + GST @18%* per participant</p> <p>a) Rs 20,000/- admission fee + GST @18% = Rs. 23,600/-** (Non Refundable) to be paid at the time of counseling for confirmation of admission.</p> <p>b) Rs. 3,40,000/- towards training fee + GST @18% = Rs. 4,01,200/-*** (Non Refundable) to be paid at the time of reporting/joining the allocated institute</p>
3.	Course fee for International Candidates (10% to be deposited at the time of counseling for confirmation of admission and balance at allocated institute at the time of joining)	US\$ 20,000 + GST @18%*

*Subject to Govt. Notification /prevailing at the time

** to be paid by Demand Draft/Online favoring “**National Power Training Institute**” payable at **Faridabad** at the time of counseling.

*** To be deposited at the allocated Institute by demand draft/On-line favoring & payable in the name of allocated Institute where admission is confirmed during counseling.

Note: - **There is no Fee concession to any category of students.**

OTHER FEES TO BE PAID BY THE CANDIDATES

The above course fee does not include other fees like Lodging/Boarding Charges etc.

However, twin sharing hostel accommodation shall be provided to the candidates at the respective training Institute at reasonable charges. Dining facility in the hostels is available at each institute on payment of charges to the institute.

The other institution fees like **Security deposit , Hostel Rent, Transport Charges, food charges, Internet Charges etc. has to be paid extra at respective institutes at the time of joining.**

Placement charges @ Rs. 15,000/- + GST @18%* to be paid by the student if he/she got selected in any organization through campus placements.

HOW TO APPLY

Applications are to be filled online with online payment of prescribed registration fees of Rs.2,000/- (including GST). Each applicant will be given an application ID on successful registration at site. This ID must be preserved for future reference.

The registration shall be confirmed only after submission of online application & online payment of prescribed registration fees. **Candidates are required to follow the instructions available on our online application page.**

No application will be accepted without on-line payment.

IMPORTANT DATES

Online registration	15/12/2017 to 22/01/2018
Publish of merit list for counseling on our web site	24/01/2018
Date of Counseling at NPTI (CO), Faridabad or PSTI, Bengaluru or NPTI, Durgapur as per candidates' choice	30/01/2018 & 31/01/2018
Date of Reporting & Commencement of course	05/02/2018
Date of Spot admission for vacant seats if any by counseling	12/02/2018

Note:

- 1. All Instructions/ Notifications or any further information to the candidates regarding PGDC Admissions shall be displayed on our website.**
- 2. All dates indicated above are tentative. Any change in the schedule of any activity will be displayed on website only. All candidates are advised to check our website regularly for new updates. No individual communication shall be entertained.**
